

RES ORIENTIS
CONSTRUCTION

About company

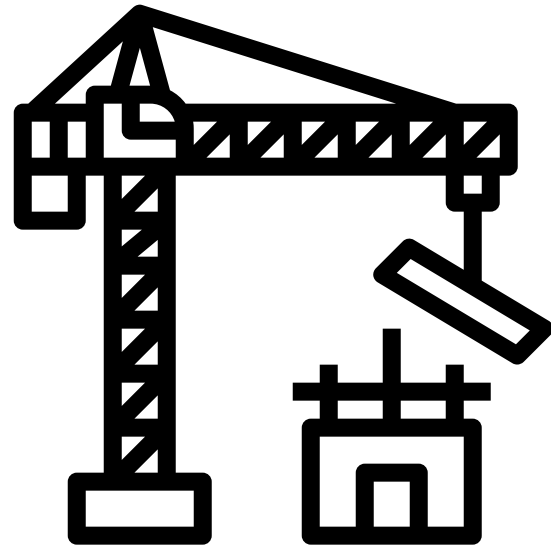

Res Orientis Construction is a part of Res Orientis Holding - diversified holding company with a portfolio of investments in various industries and sectors.

We mainly focus on general and specialised construction projects. Especially on public projects, in the sphere of prisons, the judiciary and railway (railway stations).

Area of Operation

General Construction

As part of general construction work, we offer the following services:

- Construction, expansion, renovation of residential, commercial, public and industrial buildings in developer condition,
- Demolition and dismantling services,
- Interior and exterior finishing of buildings and dwellings,
- Exterior and interior facade renovations,
- Installation of granite and stone slabs.

Specialised Construction

As the company grows, we are dealing with increasingly specialised construction sectors. These are mainly public buildings, including courts, prisons and other security buildings. We are also expanding our construction with the installation of modern technological solutions for penitentiary systems.
